

ERCIM Working Group

„Dependable Software-intensive Embedded Systems“, Meeting at UCL, Universite Catolique de Louvain-la-Neuve, Oct. 26th, 2005

Draft Agenda (9:00 – 12:00):

- 9:00 – 9:15 Welcome
Agenda, introduction of new members, minutes from last meeting.
- 9:15 – 9:45 Amund Skavhaug: Report on the successful ERCIM/DECOS **Workshop at Euromicro 2005**, Aug. 31 – Sep. 1, Porto, Portugal.
- 9:45 – 10:15 Erwin Schoitsch: Report on the DECOS Workshop “Dependable Embedded Components and Systems for Intelligent Transportation Systems” (ITSC 05).

(Handouts from the presentations will be distributed for information – so you will get the information as any participant of the workshops!)

- 10:15 – 10:45 Coffee Break
- 10:45 – 11:15 Erwin Schoitsch: News from SAFECOMP 2005, “24th International Conference on Safety, Reliability and Security of Computer Systems”, and HASE 2005 (High Assurance Systems Engineering), two recent conferences on ERCIM WG related topics.
- 11:15 – 11:45 Discussion on planning for ERCIM DES Workshops and WG Meetings at next Euromicro (Dubrovnik, Croatia, Aug/Sept. 2006) and/or SAFECOMP 2006 (26.-29.9.2006 Gdansk, Poland).

These event should **increase visibility of ERCIM, our WG and of our members**, lead to joint publications, and attract new members. Special Subtopics ? (Example: COTS and Open Source – reusability and dependability/safety for embedded systems?)

- 11:45 – 12:00 Any other issue: CEC FP7 Programme, last Call in FP6 ?? Chances for joint projects ? Date of next meeting

Any additional input and change request is welcome!!!

Erwin Schoitsch
