

ERCIM Working Group

„Dependable Software-intensive Embedded Systems“ Meeting at NTNU, Trondheim, Norway, June 3rd, 2003

Draft Agenda (9:00 – 12:30, 14:00 – open end if required):

0. Welcome by NTNU and ERCIM,
Agenda, apologies, introduction of new members, minutes from last meeting.
1. EU Framework Programme 6: report on activities around FP6 (DECOS proposal, participation in other proposals of partners in the first and second Call).
ALL Members: Please prepare a short statement !!
2. Short member presentations:
 - a. Schoitsch: AMSD project - Roadmap on Dependable Embedded Systems
 - b. Angelos Bilas, Forth, Greece: "Minaturization of Computer Systems: Challenges and Problems"
 - c. Kevin Hammond, Univ. of St. Andrews, Edinburgh: The Hume Language, a domain specific language for safety critical embedded systems
 - d. Nicolas Guelfi, IST Luxembourg: Research Activities
Invitation to next meeting in Luxembourg, November 2003.
 - e. Any other presentation
3. Proposal for detailed work programme: workshop, position papers, guidelines, standardization ? Participation in Conferences and Workshops ? (Euromicro, EWICS, SAFECOMP,)
4. Possibilities for mobility and fellowships (please prepare a statement concerning your country/institution)
5. Shared Workspace <http://bscw.gmd.de> (Axel Poigne) – usage ? experience ?
6. Visit of EmbLab - A Laboratory for Teaching Embedded Systems (Amund Skavhaug) (at 11:45 – 12:30)
7. AOB

Any additional input and change request is welcome which improves the performance of the WG and the meeting !!!

Erwin Schoitsch
